

Post-Residency Guide to Oral Health in The Medical Office

Follow these instructions in order to receive reimbursement for the application of fluoride varnish through Medicaid after graduation without going through recertification.

For physicians practicing in Pennsylvania:

- Upon employment, your employer will help you obtain your 13 digit Medicaid ID number
- When issued, please contact Healthy Teeth Healthy Children at hthc@paaap.org and we will provide you with the paperwork to submit with your MAID # to the Department of Human Services

For physicians practicing outside of Pennsylvania:

- Contact your employer's human resources representatives and the American Academy of Pediatrics to determine requirements for reimbursement for fluoride varnish application in the medical office
- For the AAP State information and resource map and comprehensive oral health information, visit: <https://www.aap.org/en/patient-care/oral-health/oral-health-practice-tools/>
